## PROFESSIONAL EXPERIENCE

### 123TCS - www.123tcs.com

FULL-STACK DEVELOPER

Bruckelen, NL

03/2021 - current

- Rewrote and restructured front end websites with react using HTML5, CSS3, JavaScript(ES6), Tailwind
- Moved class-based components to functional components, added Hooks in the project to handle the application life-cycle processes.
- Using Ajax, Json to interact with APIs.
- Implemented and executed programming, testing related activities and debugged the entire application using Chrome Development tools.
- Tested REST endpoints using POSTMAN
- Used Python with Flask to build our web-interface, where in the Front-end it is possible to send requests to those APIs to do payment, balance check and cancellation.
- Connect applications to MYSQL database, wrote queries from Python using Python-MYSQL connector and MYSQL DB package to fetch required data and retrieve information.
- Using Git to pull and commit developed content from/to the Git repository.
